

René, AOC Beaumes de Venise, Rouge, 2022

AOC Beaumes de Venise, Vallée du Rhône, France

The clay richness of the Triassic period.

PRESENTATION

A beautiful cuvée to discover, dedicated to our grandfather René, who lovingly cultivated his hillside plots in Lafare, in the heart of the Dentelles de Montmirail.

Also available in Magnum.

THE VINTAGE

After a scorching summer and very dry weather since May, the early harvest took place under extremely hot climatic conditions, with no health issues affecting the berries.

LOCATION

The plots, located at the foot of the Dentelles de Montmirail in the municipality of Lafare, face east-west and are sheltered from the Mistral wind.

TERROIR

The plots rest on Triassic soils composed of gypsum, yellow marl, and limestone marl. Located at approximately 250 meters altitude, these soils exhibit a characteristic ochre tint, providing good drainage capacity, suitable water retention, and an ideal mineral richness for vine cultivation.

IN THE VINEYARD

Our terroir, quite steep, is challenging for mechanization to minimize competition from grass around the vines. Yields are naturally low due to terraced hillsides. Harvesting is done manually.
